Gareth Matson

(747) 270-7492 • Santa Clarita, CA • garethmatson.com • gmatson@live.com

OBJECTIVE

Dynamic and innovative IT professional with extensive experience in software development, project management, and IT strategy. Proven track record of leading large-scale IT projects and initiatives, driving technology transformations, and fostering collaborative environments.

EXPERIENCE

Mobile Applications Developer   March 2022 - Present
Grace to You | Los Angeles, CA

Led the redevelopment and launch of the organization's digital ordering, giving, and product platforms, utilizing a modern tech stack for integrated operations across the organization. I was instrumental in migrating to cloud services and reorganizing system architecture. Additionally, I played a key role in rebuilding mobile applications using React Native, Swift UI, and Kotlin, which significantly improved functionality and user experience.

Key Accomplishments:

- Re-built and launched the online giving and ordering platform to better integrate across the organization using a modern tech stack
- Completed all-new system architecture plan moving the organization to the cloud (AWS and Azure)

IT Project Manager   July 2021 - March 2022
Rooftop Digital | Los Angeles, CA

In my role at Rooftop Digital, a leading email marketing firm, I managed a portfolio of over 30 projects focused on data management for a 600 million+ dataset. My responsibilities included implementing Agile methodologies, which enhanced team efficiency and productivity.. As a SCRUM master for a team of over 20 developers, I optimized project delivery and fostered a culture of continuous improvement.

Key Accomplishments:

- Overhauled the technology department workflow, internally and externally
- Increased overall efficiency leading to over $2 million revenue increase
- Trained team and implemented the Agile workflow across all tech team members

IT Project Manager   2018 - July 2021
Jackson Dawson Communications | Los Angeles, CA

At Jackson Dawson Communications, I served as a lead advisor on IT capabilities for Fortune 500 clients, managing multiple IT projects concurrently. I established Azure DevOps projects using SCRUM/Agile methodologies, enhancing project execution and client satisfaction. My role also included contributing as a full-stack developer on various projects, showcasing my versatility and technical expertise.

Web Developer   Jan 2016 - Present
Matson Technologies LLC | Detroit, MI

As the founder and manager of Matson Technologies LLC, I have built a successful web development business. My work encompasses delivering comprehensive IT solutions, including devops, sysadmin, social media, and custom application development. I have cultivated long-term client relationships, resulting in repeat business and sustained growth.
